Prof Grochow is kno  
and particularly goo  
explaining things, in  
3104 is unlike many  
CS classes like Com  
Systems or Operatin  
in that there really is  
brute memorization,  
a lot of homework. E  
can give anyone for  
is always have Level  
handy!

Algorithms is the hardest I've ever taken. Grochow is good during office hours and very available after class. Warning there is literally an insane amount of homework. Over all I'd suggest taking it. He always emailed back and seems to really care about students and cares that you understand the material than just getting the grade.
